

Current process: manual 7-day loop

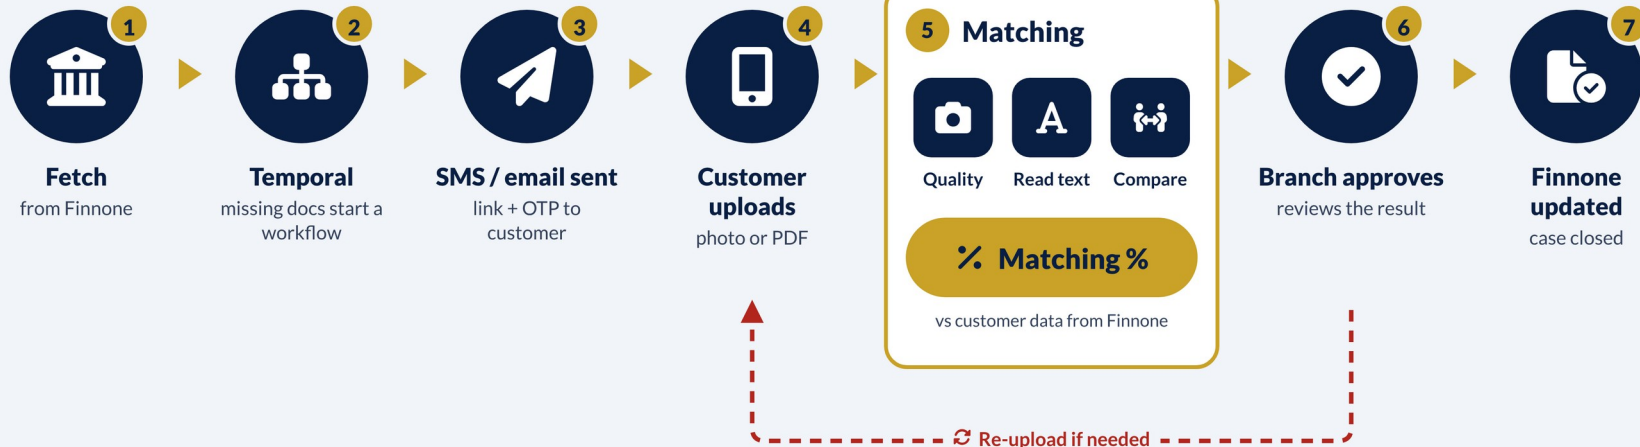

WHAT IT COSTS US

 Slow disbursal 1 week+ delay	 Sales as couriers visits, not selling	 Rework 2-3 checks per file
 Customer drop-off lost to competitors	 No tracking status unknown	 Paper risk loss & audit gaps

Proposed process: technical overview

ONE MISSING DOCUMENT, START TO FINISH

Data stays in the bank

Only the link + OTP go out

In-bank OCR, no page fee

PaddleOCR · Azure as option

Encrypted data store

SQL Server · every step audit-logged

Benefits of the new process

WHAT THE NEW PROCESS DELIVERS

Same-day file processing

upload once, done in hours

Faster disbursal

loans go out sooner

Sales team time saving

no visits to collect papers

Less rework

checked right at upload

Live tracking

status of every document

Lower cost

per case and per year

Secure, in-bank

data never leaves the bank

Reusable platform

ready for other products

Thank you
